About Me

I am a third-year Electronics and Communication Engineering student with a keen interest in software development. I am proficient in C++, HTML, and CSS, and have a good understanding of data structures and algorithms. While my web development experience is primarily with HTML and CSS, I am eager to expand my skills through challenging projects and internships, focusing on enhancing user experiences and solving real-world problems.

Education

B.M.S College of Engineering <i>B.E in Electronics and Communication</i>	2021 - present CGPA : 8.7 (till 6th semester)
Jain College V.V Puram <i>Pre- University</i>	2021 Percentage : 94
Prarthana Central School <i>Secondary Education</i>	2019 Percentage : 94

Projects

Assistive Wearable device for the Visually impaired
An assistive integrated device capable of object detection and emergency SOS for visually impaired

FPGA-Based Implementation of Enhanced Error Detection Correction Encoder and Decoder for Single Bit Error Detection and Correction
An enhanced error detection and correction technique for a single bit errors .

Skills

Languages : C,C++, HTML, CSS, SQL

Hardware Description Language : Verilog

Coursework : OOP, DSA, Computer Networks, OS , MySQL

Soft Skills : Leadership, Time management, Teamwork, Problem solving, Adaptability, Communication, Critical thinking

Areas of Interest : Coding, Software development, Web development and Circuit design and Analysis

Extracurricular Activities

Participated in two **NSS** camps organized by BMS College of Engineering, contributing to community service initiatives and teamwork activities aimed at local development and awareness programs.

I play flute.
